Court Orders Former Minister to Pay $200 Per Month to Family

Rearrest on Charge of Alleged Embezzlement Follows Decision in Desertion Charge Against George Culbertson; Accused Man Denies Attempt to Sell Bogus Paper.

George Culbertson, former minister, later salesman, of Bradford, arrested two weeks ago on a charge of desertion preferred by his wife, was given a hearing before Judge Benton, Wednesday, following which the court ordered Culbertson to pay the sum of $200 a month to his wife for the support of herself and children.

The court had no sooner issued the order, however, than Culbertson was rearrested by County Detective Allison on a charge of embezzlement preferred by Fred Gibson of Shinglehouse.

Word from Shinglehouse is to the effect that a warrant for the detention of Culbertson on charge of selling of alleged worthless paper was issued Tuesday and forwarded to Smethport in order that he might be held for Potter county authorities following the court's decision relative to the charge of desertion and non-support. Culbertson, however, strenuously denies that he has sold any worthless stock or bonds to Shinglehouse residents. He explains the Shinglehouse transaction by saying that some time ago he, in company with a man named Burt H. Craft of Chicago, who claims to have invented a wind-propelled electricity generator, gave a demonstration of the mechanism in Shinglehouse and that several people who were interested gave them money with which to defray the expenses of setting up the machine for demonstration. Later, Culbertson says, several Shinglehouse people proposed that a factory for the manufacture of the new invention be set up in Shinglehouse and plans for the project were under way when installation of a glass factory made it impossible to procure a site and other facilities and the project was abandoned for a season. Culbertson added that the whole thing can be adjusted amicably, and that he anticipates no trouble.

Following his rearrest by Detective Allison, Culbertson was given into the custody of his attorney for the purpose of procuring bondsmen. This accomplished, his release will follow.

KANE ELEVEN DEFEATS SMETHPORT HI IN HOT GAME LAST SATURDAY

The unexpected happened in Kane field last Saturday afternoon when Smethport's football team went down to defeat at the hands of the biggest huskies they have met to date by a score of 19 to 6. At that, however, the local lads kept their opponents busy and convinced them that they were men well worthy of their steel.

While the Kane boys showed to excellent advantage and proved themselves true sportsmen, Smethport also revealed manifold flashes of professional ability, the which, had it been of more uniform variety, would have brought forth the victory. The boys, however, are not discouraged. In the game with Kane they learned many things to their advantage. A little more practice and they will retrieve the loss of Saturday.

Kane's chief advantage was in weight. This, however, was overcome in many instances by playing on Smethport's part which revealed the exercise of the highest generalship.

Next Saturday the Smethport team leaves for Cuba, N. Y., there to contest with one of the best teams of the North Empire state.

SENIORS AND JUNIORS OF HIGH SCHOOL HOSTS AT HALLOWE'EN PARTY.

The members of the senior and junior classes of the Smethport High school gave their annual Hallowe'en party to the freshmen and sophomore classes, Monday evening in the school hall. The room was attractively decorated in black and orange streamers and all those participating wore fancy costumes and masks, presenting a riot of colors.

The evening was spent in playing old-fashioned games and dancing, after which the committee served doughnuts, apples and cider. About 90 were present.

The prizes for the handsomest costume was awarded to Marjorie Owen; for the funniest costume, to Leonard Oleson. The committees in charge were:

Refreshments—Albert Johnson, Hilda Bengs, Anne Andrews, Harriet Brownell.

Decorations—William Metzgar, Leota Hovis, Edith Andrews, Ethel Moore.

Entertainment—Dick Shattuck, Florence Schoonmaker, Marjory Owen, Helen Pierce.

POPULAR YOUNG COUPLE UNITED IN MARRIAGE BY REV. FR. DONAHUE.

Winifred O'Brien, youngest daughter of M. P. O'Brien, chief of police of this place, and Thomas Dunn, son of Mr. and Mrs. Clark Dunn, also of this place, were united in marriage, Saturday morning, October 28th at 8:00 o'clock, at St. Elizabeth's church, Rev. P. J. Donahue officiating. Their attendants were: Miss Vera Jones of Smethport, and Arthur Dardenne of Port Allegany.

The bride was stylishly attired in a blue coat suit trimmed in squirrel, with hat to match, and wore a corsage bouquet of pink and white roses. The bridesmaid wore a blue suit, and black picture hat and carried pink roses.

Following the ceremony the happy couple left for Buffalo and other points of interest. After November first they will be at home at the residence of the bride.

Miss O'Brien is one of Smethports most popular girls. She attended Smethport High school, and later was employed as book-keeper in both the Democrat and the Miner offices. For the last year she has been employed by the Redfield publishing company.

Mr. Dunn is a capable, industrious young man. He has a position with the Interstate Window Glass factory. Both he and his bride have a large circle of friends. The Miner wishes them the greatest happiness in their married life.

TAKEN TO THE PEN.

Charles Thomas, convicted of robbing a freight car of the Pennsylvania Railway company, at Larabee, was taken t the Western Pennsylvania penitentiary in Pittsburgh, last Friday by Sheriff Joseph F. Robinson. Thomas was given a sentence of not less than one year and not more than two years.

On the Road of Good Intentions

CONGRESSMAN TAKES RAP AT DRY LAW VIOLATORS IN HOT ADDRESS, SUNDAY

A terrific onslaught on bootleggers and violators generally of the Eighteenth amendment and the Volstead law was made by Congressman Clyde M. Kelly of the Thirty-third Pennsylvania district, before a goodly-sized audience at the Methodist Episcopal church, Sunday afternoon.

The lawyer who defends violators of the liquor laws in Pennsylvania courts becomes a greater reprobate than the bootlegger himself," declared the speaker in a sweeping denunciation of judges lawyers, enforcement agents and "booze politicians" whose laxity, he charged, is responsible for the many violations of the Volstead creed.

Mr Kelly lauded Prohibition Commissioner Haynes and State Director Davis and urged an alliance of all church members to apprehend violators of the liquor laws. He prophesied that never again shall the saloon open its doors under the protection of the Stars and Stripes."

In refuting the arguments advanced that prohibition has fostered a disrespect for all laws and has increased crime, he gave figures claimed to have been computed by chiefs of police of several Pennsylvania cities, to show that the number of persons arrested for drunkenness during 1921 were far less than those arrested for the same offense in 1916. He argued that "booze bolshevists and alcohol anarchists never knew how to obey the law and it cannot be expected that they shall turn law-abiding in one day because of the passge of the Volstead law."

Speaking of charges advanced by foreigners that America has become a country ruled by fanatics and that there is more freedom in the countries oversees, Mr. Kelly, pointed out that steamships are still crossing the seas and advised that foreigners who believe so lose no time in booking passage. He scored judges in this state who are content with sentencing liquor violators to small fines as becoming allies to crime and charged that many enforcement officers are ex-bartenders.

He concluded his address with the statement that Pennsylvania has taken the brunt of the enforcement fight and that "if we allow this law to be repealed or even modified, it will mean anarchy."

BURGLARS DESPOIL STORE AT BETULA, SATURDAY A. M. OF $50,000 IN MERCHANDISE

Last Thursday morning between 2 and 3 o'clock the large clothing store of A. J. Silin, at Betula, was entered by thieves and despoiled of goods estimated to be worth fully $3,000.

The store was entered by removing a pane of glass, 14x12 inches, from a front door. It is thought that a very small individual, a youth, in all probability, entered the opening and ransacked the store, making a very careful selection of the goods and handing the loot to men outside, who loaded them into an auto truck. From the fact that only the best grades of goods were taken, it is reasoned that the burglary was perpetrated by some one familiar with the interior of the store and arrangement of the stock.

The merchandise taken includes:

One hundred and eighty pairs of women's silk stockings, 48 silk and satin dresses, 14 other high-priced dresses, three men's overcoats, 12 Ingersoll watches, one gentleman's gold watch, a very valuable one, together with a wrist watch of considerable value; 36 men's shirts of excellent make, which retailed at $3 each.

County Detective Allison, who was called to the scene, is of the opinion that the goods were loaded into a covered truck, as one of that description was seen on the road leading to Smethport by a party of merrymakers returning from a social function about 3 a. m. The covered truck later was seen near Port Allegany. Detective Allison immediately notified all nearby towns to be on the lookout for the truck.

It also is believed that the robbery is the work of the same gang which entered the railway station at Hamlin, Betula and Smethport, a little over two weeks ago. It will be recalled that at Hamlin express packages containing clothing valued at $85 were stolen, clothing also was taken at Betula and tobacco and cigars at Smethport.

$50,000 FIRE DESTROYS GARAGE AND 31 AUTOS

St. Marys was visited by a $50,000 fire Saturday, when the large building occupied by the St. Marys garage was burned and 31 automobiles were destroyed. The garage was the property of Curry & May. There was no one in the building at the time. A young man named Ed. Mulcahy was on his way home from work at 3 a. m., when he observed a cloud of smoke coming from the building. He turned in an alarm, but before the fire department arrived there was an explosion, presumed to have been a gas tank of one of the cars, and the interior was a mass of flame almost instantly. The building was doomed ere the firemen got in to action and they immediately gave their attention to adjoining propery. The Muhr block next door, was damaged to the extent of several thousand dollars. Origin of the fire is unknown.

Kane Woman Shoots Husband Following Lively Family Row

Young Wife Brought to Smethport and Lodged in Jail; Husband Alleges Intimacy With Boarders; Woman Declares Mate was Full of Hooch and Dangerous.

Mrs. Emmelina Romagnino, of Kane, charged with shooting her husband, Joseph Romagnino, with intent to kill, was brought to the county jail Tuesday afternoon by Detective Allison. The charge is not admissable to bail when brought before a justice of the peace.

The condition of the husband who is in the Kane hospital, is considered favorable.

When arraigned before Squire Stenger, in Kane, Tuesday, Mrs. Romagnino pleaded not guilty to the charge, declaring in substance that her husband's belligerent attitude compelled her to shoot him. The accused women is young of rather pleasing appearance, but showed traces of the ordeal she is undergoing. In the hearing before Justice Stenger one of the witnesses testified that she was tired of the life she was living with her husband and didn't care what happened to her.

Kane, Pa., Oct. 30.—Joseph Romagnino of 329 Bayard street is in the Kane Summit hospital in a critical condition as the result of a bullet wound inflicted by his wife Emmaline, Sunday night, as the climax to a fight which waged between them throughout the evening, caused it is alleged by jealousy and culminated when Mrs. Romagnino shot her husband with a 32 calibre revolver.

The bullet entered Romagnino's face near the mouth and was later removed at the Kane hospital from the back of the patient's head near the base of the brain. The wound is a very dangerous one and Mrs. Romagnino is being held by the authorities to await the outcome of her husband's injuries. Sam and Guetano Collela are also held as material witnesses.

According to the best information occasional squabbles are reported and Romagnino is alleged to have been jealous of his young and pretty wife. He is about 34 years old and she is said to be 23.

The injured man's story of the occurrence is that he had retired, about 11 o'clock, leaving his wife and two boarders, Sam Collela and his brother, Gaetano Collela, in the kitchen. Romagnino, upstairs, says that he heard Sam and his wife exchanging loving words and also heard the sound of a kiss. He came down stairs and says that he found his wife in Sam's arms. He took his wife to task for her behavior and alleges that the Collela brothers attacked him and that his wife called him abusive names. He ran outside and called to his next door neighbor, Oscar Johnson, and then ran up Bayard street in his night clothing to his brother's home at 305 Bayard street, but was unable to arouse him. He says he returned to his home and that when he started to reproach his wife for her behavior Sam and Gaetano Collela grabbed and held him and that his wife stood in front of him and fired the revolver.

Romagnino ran from the house into the back door of Mr. Johnson's house and was cared for there until taken to the hospital.

The stories of Mrs. Ramagnino and Sam Collela differ from the story of the husband. They claim that there was never any lovemaking between them and they were peeling potatoes when Romagnino came down stairs and attacked his wife. He had been drinking and was very quarrelsome. Sam says that he interfered because he was afraid Romaguino would choke her to death. Mrs. Romagnino says she saw that her husband was edging toward a sewing machine drawer where she knew there was a revolver. She said she secured the revolver and ran out doors and gave the gun to William Jacklin who was passing, telling him to take charge of it for safety's sake, and also told her sister who lives across the street of her trouble. She then returned home, with her sister, and found that her husband had gone out somewere. She went upstairs where she knew there was another revolver and had just secured it and reached the foot of the stairs when her husband came in from outside. He talked abusively to her, calling her vile names and in fear that he was going to attack her again she shot him.

The wife and the Collela brothers were taken to the city prison by Policeman Carl Swanson. County Detective J. J. Allison of Smethport was notified and started investigating the case.

COUNTY LETS CONTRACT FOR ELECTRIC SERVICE TO ST. MARYS COMPANY

Bids for the wiring of the court house, county home, sheriff's residence and county jail were opened by the county commissioners, Tuesday, with the result of the contract award being made to the St. Marys Electric company at their figure of $3,650.

For the reason that all other bids submitted, save that of the Standard Electric company of Smethport, did not meet the requirements of the proposal, they were not considered. The Standard Electric company's bid was $3,819.

The successful contractors have been ordered to begin work at once. The first institution to be wired will be the county home, then the jail and court house. The commissioners expect the work to be rushed to completion.

The award of this contract marks the second greatest undertaking since the installation of electric service in Smethport, the first being the Acetone works in East Smethport.

AMERICAN LEGION BOYS AT WORK FOR MEMORIAL.

The members of the American legion Memorial committee having in charge the campaign for a memorial dedicated to the soldiers of all wars, report a wonderful amount of enthusiasm in behalf of the project and the hope is expressed that all voters will support it. The committee composed of Dr. W. A. Ostrander, Tony Anderson and Frank Fay, visited the Mt. Jewett post this week, where they found every member in favor of the memorial. With all soldiers for it and a large number of citizens generally, the boys believe that it will prove successful at the polls.

FOR CONGRESS

ELISHA KENT KANE

UP TO YOU.

This advertisement closes my campaign. All the money which I can afford has been spent on the circular letter which I am mailing to your homes and on these newspaper articles for which I pay direct advertising rates. Not a dollar pays for personal work. Not a single promise or pledge has been made to any person, corporation, organization or interest except as shown in that letter, the photo card and these advertisements. I have not even delivered a single speech Yet all who knows about me are aware that I can speak effectively and to the point. My father, General Kane, taught me to "think on my feet." I want to be sure myself, and make you sure, of just what you are getting when you vote for me. You have a right to my whole-hearted service. I propose to show myself worthy of seven terms in Congress. Then, like my mother's father, William Wood, I can retire at the age of 80. Thus I can impartially serve the whole district, regardless of this being "Cameron County's turn." And my fellow congressmen dare assign me to important committees without fear that I must quit soon after I have learned the work. On the ballot, my name will be marked Prohibition only. I do not claim to be a Socialist, Democrat or Republican also. I shall be elected by votes of ten times more republicans, democrats and socialists than the entire enrollment of my own party. I'll remember that fact. While Harding remains President, my disposition will be to make his administration successful, even though to do so, I must tone down extreme measures. I hope to find the broad minded William Jennings Bryan representing Florida in the Senate, and introducing measures which I can support. And, if Meyer London, the Socialist, in Congress offers measures inspired by love of the poor instead of hatred of the rich, I'll try to blend such measures to reasonable practicality. Party quarreling must stop and public business prosper.

I have published some interesting original ideas. Hoping you liked them. My time in congress will be principally taken up with work on the usual lines. Tariff, banking, railroad regulation, domestic and foreign trade must be attended to. I'll try to avoid unnecessary changes.

Concluding, I want to thank the newspapers for not saying a word against me. I had not asked it of them. I thank also my competitors, Swoope and Snyder, for not having uttered one published word which would hurt my feelings. When I am in Congress, their suggestions will receive the friendliest welcome.

ELISHA K. KANE.

SPRAYED TUBERS YIELD 115 BUSHELS TO ACRE.

Centre county leads all others in the increased yields of sprayed plots over those that were unsprayed. On the farm of Harvey Decker at Spring Mills, where Michigan disease-free seed potatoes were used, the sprayed section yielded an average of 403 bushels to the acre, an increase of 171 bushels over that received from the unsprayed piece. The average sprayed yield was 445 bushels, the highest yet reported for Pennsylvania this year.

NEWS OF THE SECTION

and Exchange Clippings

Port Allegany—The steam shovel is now excavating on Silver Spring hill, back on the old road, the excavating work on the new section of road having been completed. This necessitates the closing of the old road, and makes a detour necessary by way of the Schoonover bridge across the river as far as the Clark or the Burtville bridge.

Harrisburg—Pennsylvania now has over 877,000 licensed motor vehicles. The state highway department announced that up to October licenses had been issued for 751,868 automobiles, 64,840 commercial vehicles, and 19,085 motorcycles.

Shinglehouse—W. L. Shields of Eleven Mile valley is harvesting his potato crop, which will be around 2,000 bushels, and he says it pays to spray potatoes. Those that were sprayed are yielding around 234 bushels to the acre while those that were not sprayed are running about 156 bushels to the acre.

Kane—According to the poll books for Kane borough just received by County Chairman Smith, there are 3,593 eligible to vote, which gives Kane 700 more than the city of Bradford. Of the total registration, 181 are registered Democrats. The county registration is overwhelmingly Republican.

St. Marys—The third meeting of Clearfield-Elk-Cameron counties Improved Road association was held Thursday afternoon. The object is to have restored the original Sproul road across the county seats of Clearfield, Elk and Cameron counties and incidentally to link up northern and central Pennsylvania by means of the lakes to the bad highways and incidentally up through New York state to Buffalo.

Shinglehouse—Contractor D. R. Stone of Shinglehouse finished a grosser for the Interstate Window Glass Co., on their lease in Fisk Hollow, 7 miles south of here. Wednesday. The well is good for about 200,000 cubic feet of gas a day. The rig is up and drilling will begin on another well this week. This company will drill three wells this fall. The Gray Chemical Co., whose lease adjoins the Interstate's property, will drill three wells to off-set the Glass Co.'s, three wells, and Mr. Stone has the contract of drilling them.

Eldred—Much sport has been had hereabouts over the fact that Eldred had no jail, but this cannot now continue, for workmen have set up two new steel cells in the new city building where all offenders can be put on short rations and jail sentence. The new cells are large and will be fixed up according to legal specifications, and will soon be ready for use.

Kane—Richard A. Gustafson, of the Willard Service station, sustained an injury Thursday that may result in the loss of his right eye. He was working on a liquid battery when gas generated in one of the cells and exploded, showering his face with acid. The right eye is terribly burned and fears are entertained that he may lose the sight of it.

Port Allegany—S. E. Cooper, a native of Annin Creek and a one-time resident of Turtle Point, died at his late home in New Lisbon, Wisconsin, October 8. His wife and one daughter survive. Immediate relatives in this vicinity are: S. A. Cooper, J. A. Cooper and J. S. Cooper of Turtle Point, brothers, and Mrs. Myron Smith of Port Allegheny, a sister.

Kane—Andy Wilkinson, of this city, who was employed on a well near Eldred, had the misfortune to have his right foot severely crushed last Tuesday while at work. He was immediately taken to the Olean hospital where the injured foot was treated. He has been removed to his home in this city and is getting along nicely.

NOVEMBER MILK PRICES.

Producers' prices for November per 100 pounds of 3 per cent milk at the 201-210 mile zone, as recommended by the board of directors of the Dairymen's League Co-Operative association in session at Utica, New York, are as follows:

Class 1—Fluid milk for city consumption, $2.90. (same as October.)

Class 2—Milk manufactured into cream and ice cream, $2.25, an increase of 25 cents over October.

Class 3-A.—Milk manufactured into canned milk, 47 cents over the average market quotations for butter for the current month.

Class 3-B. Milk for the manufacture of fancy cheese, 40 cents above the average market quotations for November butter.

Class 4—Milk for butter and cheese, price to be based on the average prices of these products in New York City wholesale market for November.

ACCURACY in ACCOUNTING

Within the memory of persons still living the word "accounting" brought up a picture of a man on a high stool writing with a quill pen and using sand instead of blotting paper.

But the telephone belongs to a newer era, and telephone accounting is as modern and as accurate as is humanly possible.

The men and women who do the accounting work are careful and take every precaution to avoid mistakes.

For they know that errors sometimes cause misunderstandings.

When mistakes do occur—and they are bound to occur once in a while—every effort is made to adjust them.

To adjust them courteously.

For in the accounting, as in every branch of the telephone organization, the Bell people work with the idea constantly before them that *courtesy pays.*

DEMOCRATIC DESPERATION

As the day of election approaches the outlook for success of the Republican ticket entire becomes more and more promising. In McKean county the forces of Republicanism are lined up ready and eager for the fray. Scenting defeat of their chosen leaders—gubernatorial, senatorial and congressional—the Democrats are making a desperate effort to save something from the impending wreck. With the knowledge that Pinchot's victory will be a decisive one, the Democrats of McKean, and in fact, many other counties of the state, are working like trojans to elect a sufficient number of assemblymen to embarrass Pinchot and his program. In fact the word has gone out to elect Democratic assemblymen at any cost. That this command is being executed to the best of Democratic ability, evidence is afforded by the fact that practically every candidate for the assembly, especially in the northern tier of counties, is and has been made the subject of outrageous personal attacks.

Here in McKean county, the Democrats, realizing that all is up with McSparren, are doing their utmost, and without regard to decency or justice, to defeat the Republican candidate for the assembly, Oscar E. Gustafson. The past two weeks of the campaign have witnessed attacks upon Mr. Gustafson from Democratic sources which have aroused the indignation of every one who knows him as a gentleman of ability and integrity. In fact so reckless and unsparing has the opposition become that certain of its members have sought and are seeking to propagate the malicious fabrication that he, Oscar E. Gustafson, the man approved of Gifford Pinchot, is a disseminator of ideas at variance with fundmental American doctrine. But bunglers that they are, the Democrats have overplayed their hand; for aroused as they never have been before, the citizens of Kane, irrespective of party, who know Gustafson as citizen, friend and neighbor, who have followed his career from boyhood and ever have had cause to feel proud of him, have answered the foul slander by attesting to his worth as a citizen, a patriot and a gentleman of ability and the strictest integrity.

From the fact that Gustafson approves the Pinchot program; that he is a lifelong Republican; that he has always labored in behalf of the Republican cause; that his life's record is clean; that he enjoys the confidence and respect of all who know him, and that he has the ability to represent old McKean in the general assembly of Pennsylvania—all this and more—entitles him to best consideration on the part of every citizen who thinks and feels that McKean county is entitled to able representation.

Years of service as school director show how Gustafson is regarded in his home town, and his selection as candidate for the assembly shows how he is regarded by the Republican party.

SWOOPE ON CHILD LABOR.

In an address delivered before the league of Women Voters of Bradford, recently, Hon. W. I. Swoope, Republican candidate for congress, hit the nail squarely on the head, when, speaking of a child labor amendment to the constitution, he said:

"The recent decision of the Supreme court of the United States declaring the act of congress regulating child labor unconstitutional, has brought to the attention of all good citizens the necessity of adopting a twentieth amendment to the constitution. The Republican party declared in its pre-election platform that if the present law be found unconstitutional or ineffective, we shall seek other means to enable congress to prevent the evils of child labor.' It is an industrial impossibility for one state or any group of states to maintain high industrial standards in direct and open competition with states that have no such high standards. Therefore the necessity for a federal law.

"One million children from the ages of 10 to 15 years are now at work in the United States.

"Statistical figures are cold, uninteresting things, so let us put the mater in another way:

"One million unprivileged children, destined to grow to be underprivileged men and women, to recruit the ranks of the half-witted, the gunmen, the incompetent and the criminal.

"One million votes less capable of exercising the greatest function of the ballot because of poor equipment or reasoning power and decision.

"One million dwarfed intellects to be the very easy prey of prejudice, class consciousness and hatred—undersized minds that will fatten the purses of the crafty and the conscienceless.

"One million prospects for the I. W. W.'s, the Bolsheviki and all other exponents of half-baked theories of government.

"One million people whose darkened minds will inevitably pull down the standard of art, music, drama and life in all its ramifications.

"One million children whose pitiable plight shames the boasted wisdom and statesmanship of the United States of America.

"One million little folks, at heart innocent of all these and other dire portents for their country, with a real and just grievance against the one hundred million who permit this immeasurable folly of child labor to continue.

"If something cannot be done for these children, whose youths and strength are being drained away, the results in future years will be sad indeed for the whole nation. The exploitation of children in mills and factories must end. The inhumanity, the injustice, the barbarity of child exploitation has come to be so generally understood that none dare uphold it in the open. The machinery of amending the constitution should be set in motion without a moment's delay."

UNDERHAND TACTICS.

In the Kane Republican for Monday, Hon. Scott Smith, chairman of the Republican county executive committee, says:

"Oscar E. Gustafson, Republican candidate for the assembly is making a hard and a clean fight for the office. Vicious lies are being circulated about him in various sections of the county in an effort to defeat him. Here in Kane we know him as he is, a hard working young man who is held in esteem by all his fellow citizens. A graduate of the Kane high school, he will represent McKean county in a finished manner. Work for him and vote for him on election day."

The McKean County Miner has a greater circulation than any other weekly newspaper in McKean County.

Governor-to-be Pinchot must have an assembly to back him. A vote for Oscar E. Gustafson is a vote for a Pinchot assembly.

A county seat Republican newspaper published in a Republican county means a large circulation and excellent advertising value.

The Republican party promises to start the mills and factories going and they're humming at a greater rate now than at any time in the past decade. The way to prosperity has been opened. Vote the Republican ticket.

The next general assembly of the state of Pennsylvania will be overwhelmingly Republican. For that and other reasons no county like McKean can afford to be represented by a Democrat. In such an assemblage a Democrat would be lost. A vote for Gustafson means a vote for 100 per cent. representation.

The Pinchot program of good government includes the election of assemblymen pledged to its support. Oscar E. Gustafson, Republican from McKean county, approves Pinchot's plans and Pinchot approves Gustafson. On the other hand, the Democratic candidate is pledged to McSparranism and all that implies. Choose ye this day whom ye will select.

WILD PIGEONS KNOWN HERE 25 YEARS AGO FOUND IN S. AMERICA.

"Forest and Stream," the great sportsmen's journal had a standing cash reward of $1,000 for definite information regarding the complete loss of the pigeons.

The following article should interest all sportsmen in this section. Has the Smethport hunter found the lost birds?

"Passenger pigeons, which 25 years ago were so numerous they "darkened the sun" in Pennsylvania, are believed to have migrated and settled in Peru, according to a letter received by Col. Henry W. Shoemaker from C. W. Dickinson, an old time hunter of Smethport, Pa.

"These birds disappeared so suddenly and so completely that the cause of their disappearance has been a subject of conjecture ever since. Mr. Dickinson writes that E. C. Pattison a former resident of Smethport, now an oil driller for the Standard Oil company, in a sandy region of Peru, noticed the abundance of Pigeons resembling those once of Pennsylvania. He declares there were millions of them and that the natives shot them as destroyers of crops.

"It is a theory that the pigeons, becoming aware of the rapidity with which the lumbermen were destroying the forests of the state, their natural meeting places, decided to Migrate. Similar cases are said to have occurred frequently in the annals of bird life."

SMETHPORT BAND SCORES HIT IN MAMMOTH PARADE BRADFORD, TUESDAY NIGHT.

A hundred or more Smethportians journeyed to Bradford Tuesday evening to participate in the great Hallowe'en demonstration put on by the business men of that city. They report one of the greatest crowds in Bradford's history. Smethport, however, scored a big hit in Bradford, when the vast assemblage of merrymakers voted the Smethport band the best band in the big parade. It was a late hour when the home folks returned, but all reported an enjoyable time.

Owing to improvements of the Bradford-Smethport road between Row City and Bradford, all cars were forced to detour by way of the Minard run road.

HUNTERS OF AMERICA PAY OVER $6,000,000 IN LICENSES THIS YEAR

"That more than six millions of dollars have been paid into various state treasuries by hunters of large and small game this fall is something that everyone does not know," said C. W. Masser, the local Winchester dealer, yesterday.

"This six million," continued Mr. Masser "is only a small portion of the money these sportsmen spend for the pleasure of seeking game. The license is the least inexpensive thing that has to be procured, but it is something that is absolutely necessary. It is also necessary for one to have a good gun, the best of ammunition, the necessary clothing, etc., if one is going to hunt with comfort. We have done a bigger business in sportsman's supplies this year than ever before and I understand that the same situation is being experienced by dealers all over the United States.

"The hunters of Pennsylvania paid in $480,000 for the privilege of hunting in this state, while our neighbor states, Ohio and New York, spent $308,000 and $274,000 respectively.

"That those who hunt in the field are sportsmen in every sense of the word is proven by answers to a number of telegrams recently sent out by the Portland, (Ore.) chamber of commerce requesting to know the amount of money sportsmen spent in various places. The Maine Commissioner of fish and game replied that from $30,000,000 to $50,000,000 were left in Maine yearly by those who hunt and fish; from Florida came word that $25,000,000 were left there by sportsmen each year; Wisconsin placed the figures at $3,000,000; Denver at $20,000,000 and San Francisco at $11,000,000. These five scattered plan to go at once."

points give a total of $315,000,000. The Portland chamber of commerce wanted these answers to refute any argument that it doesn't pay to cater to sportsmen.

"With game more plentiful now than it has been for many years, with wise conservation measures being put in force, with the United States government very much interested in the game in every state, it does pay every city and state to cater to sportsmen. The state that spent money yearly to breed game, that spends money on game preserves and stocks them gets a lot of money back for its citizens for the sportmen will go there to hunt and they will spend money in traveling. This has been one of the greatest hunting seasons on record. Those who have not already spent some time in the field had better get out at once."

CIVIL SERVICE COMMISSION ANNOUNCES EXAMINATIONS

The civil service commission invites special attention to the fact that in examinations held recently in Erie, Pa., and other cities throughout the United States for computer, Coast and Geodetic Survey, and assistant observer in meteorology, Weather Bureau, applicants were not secured in the number desired, and that those examinations will be held again on December 6.

Persons interested in these or other examinations should apply to the secretary of the U. S. Civil service board at the local postoffice for detailed information and application blanks.

KANE PLAYER SNEEZED AND DISLOCATED SPINE.

The jinx, which has been following the Kane high school football team, accompanied them to Smethport, Saturday, and just as the players were going onto the field for the game, Floyd Swanson, left guard, sneezed and as a result dislocated one of the vertebrae of his spinal column. He fell and was apparently paralyzed, suffering the most intense pain. He was unable to take his place in the line-up and the occurence delayed the starting of the game. Swanson returned home with the other members of the team and is feeling as well as usual today.—Kane Republican.

METHODIST EPISCOPAL CHURCH

NOTICE.

All property owners in the Borough are requested to trim their shade trees from the ground up to a height that will permit the free carrying of umbrellas on rainy days, and on Main street the trees should be trimmed up to the height of the top of the ornamental lights. This will make the lights more efficient, look much nicer and it will improve the trees and the lawns underneath. This is the time to trim trees, and if you will do it at once the Borough will carry away the trimmings free of charge.

UNCLE SAM TAKES OVER MORE FOREST PARK LAND IN FOUR-COUNTY TRACT.

Land for the Federal Forest park, [illegible] located in the counties of Warren, Forest, Elk and McKean, is being acquired at a satisfactory rate, says L. L. Bishop, of the United States forestry service, who is the head official in the undertaking.

The maximum price paid for the land is $15 an acre and it is expected that 120,000 acres will be acquired by the government. Future plans call for the acquisition of 1,000,000 acres. Condemnation proceedings are never used to acquire property, but often there is friendly litigation that the titles may be cleared. Every acre purchased will be put to the use to which it is best adapted.

Timber will be cut under government supervision. The forest management will encourage hunting and fishing on the large tract so long as the state game laws are not violated. Hunting camps and lodges may be erected by securing the permission.

In time it is expected that the forest will produce an income of 25 per cent annually over upkeep expenses. This money will be divided between the state and national governments.

Mr. Bishop called attention to the fact that, when the government appropriates $75,000,000 for forestry over one million dollars also was appropriated for government road within the forest boundaries.

WILL PAVE CORRY-ERIE ROAD.

That Corry will have a paved highway the entire distance to Erie in fact is practically assured, plans having already been drawn for the improvement of the three mile stretch from Findley Lake to the Pennsylvania state line on the North East road the only unpaved link of the Corry-Erie road.

LAUGHTER

OF COURSE I laugh when troubles rise.
To turn my hopes to chaff,
For I am old and fairly wise,
And know when darkened are my skies,
And scalding tears suffuse my eyes,
Then is the time to laugh,
And keep the woes that round me spin
From striking in.

ATLAS PORTLAND CEMENT

PORTLAND cement requires expensive manufacturing machinery, delicate and accurate analysis, proportioning and supervision—it is probably the most costly of all building materials to manufacture. In use on the job it is one of the most economical.

To the building world it is what sugar is to the grocer—a small profit item that must depend on volume for any profit at all. Your building material dealer is actually doing your community a favor when he stocks cement—it is an essential, and as such he carries it.

But because it is an essential you can enable him to continue to stock it. There are a dozen small jobs, and perhaps some big ones, where you can most economically and profitably use concrete right now. You'll be surprised how cheaply it can be used.

SHERIFF'S SALE.

BY VIRTUE of a writ of Fieri Facias issued out of the Court of Common Pleas of McKean County, I will expose at public sale on the premises at Mt. Jewett, McKean County, Pennsylvania, on Friday, November 10th, 1922, at 2 o'clock P. M.

(1). The defendants' interest in all those certain pieces, parcels or lots of land situate, lying and being in the Borough of Mt. Jewett, County of McKean and State of Pennsylvania, bounded and described as follows:—

Pennsylvania, and to me directed, building, said corner being the south east corner of land now or formerly of said Chas. Lunden; thence south 76 degrees, 45 minutes west along the north line of Main street, (said line being the front abutting line of the western half of said Lunden Building) twenty-five feet to a point, the southwest corner of said building; thence north 11 degrees 19 minutes east along the west line of said building one hundred and forty (140) feet to a point on the south line of a five foot strip of land now or formerly owned by Gust Johnson; thence north 79 degrees, 10 minutes east, twenty-five feet (25 ft.) to a point on land now or formerly of said Charles Lunden; thence south 11 degrees 19 minutes west on a course bisecting the said Lunden building, one hundred and forty (140) feet to a point at the middle of said hall way entrance, on the north line of Main Street, the place of beginning, containing 3,500 square feet.

(2) ALSO ALL THAT CERTAIN TRACT or parcel of land in the said Borough of Mt. Jewett, County of McKean, State of Pennsylvania, bounded and described as follows, viz:—

BEGINNING at a point the centre of the main entrance of the double brick building of Charles Lunden, on the north line of Main street, said point being twenty-five (25) feet, south 75 degrees, 45 minutes west of the southeast corner of said (75 ft.) to the place of beginning.

Together with the easements and rights of way and subject to the same covenants, exceptions, reservations and conditions as contained in that deed bearing date the second day of May, A. D. 1913, by Charles Lunden et al. to Frank Rizzo, and the same being recorded in the office of the Recorder of Deeds of the County of McKean, State of Pennsylvania, in Deed Book, Vol. 164, p. 421 etc.

Seized, taken in execution and will be sold as the property of Charles Gerardi and Rosi Gerardi at the suit of Frank Rizzo.

I. F. S.'s BRADFORD STAR STORY IS UNTRUE.

In a special telegram to the Miner, Mr. Elisha Kent Kane, Prohibition candidate for congress, says:

"The editorial about me in the Bradford Star-Record this (Tuesday) afternoon, is untrue in practically every particular. My letter was mailed to 45,000 voters without knowing their party.

"Except for $100 from David McClymont, no one but my wife contributed one cent to my campaign. My influence has secured Prohibition endorsement and thus have elected dry Republicans as often as dry Democrats."

While The Miner is "not for" Mr. Kane in his race for congress, it can truthfully say that he has conducted a clean campaign throughout.

LUDLOW WOMAN DIES.

Mrs. Louise Westburg passed away Sunday evening at 9:15 o'clock at her home in Ludlow, following a lengthy illness of diabetes. Mrs. Westburg had resided in that community for a number of years and was a member of the Swedish Mission church. She is survived by nine children.

ROAD WORK PROGRESSING.

Work on resurfacing the Smethport-Bradford road between Row City and Bradford, is progressing at a satisfactory rate, but several weeks will elapse ere it is opened to vehicular traffic. Bus passengers are accommodated by means of transferring, while autoists find the Minard run road a detour to their liking.

CLUB GIRLS HONOR.

The Catholic Girls' club entertained with a miscellaneous shower Wednesday evening in honor of Mrs. Thomas Dunn, (nee Winifred O'Brien.) Practically all the members of the club were present and a most enjoyable evening was spent. Mrs. Dunn was the recipient of many useful and beautiful presents.

NOT MUCH ON WHEAT BUT STRONG ON OIL.

McKean is a mighty poor wheat raising county, according to the figures compiled by the bureau of statistics of the Pennsylvania department of agriculture. The report covers the wheat yield for 1922 and indicates that the average yield of wheat per acre throughout the state was 18.8 bushels as compared with 17.5 bushels in 1921.

McKean had but 231 acres in wheat and the yield per acre in bushels was 20.7 with a total production of 4,782 bushels. But two counties, Cameron and Lackawanna, ranked below McKean in production. Of course while Lancaster county was producing 2,500,000 bushels of wheat, which retailed for about a dollar a bushel, McKean was producing a barrel of oil for every bushel of wheat and this product was sold for $3 and $4 a barrel, which rather tilts the balance on McKean's side of the ledger.

LADIES EXTEND THANKS.

The ladies of the American Legion Auxiliary, delighted over the success of the Yankee Doodle Jubilee Minstrels, have asked The Miner to extend their sincere thanks to all those who took part in the performance and made it one of the most pronounced hits ever scored by local talent.

A CORRECTION

The Miner was somewhat in error last week when it stated that H. L. Harmon of Kent Hollow raised 240 bushels of potatoes per acre from 73 1-3 bushels of disease-free seed procured from the local Farm Bureau. The article should have stated that Mr. Harmon procured 73 1-3 bushels of disease-free seed from the Farm Bureau from which he raised 240 bushels of potatoes on two-thirds of an acre, or an average of 360 bushels per acre.

RIXFORD CANCELS GAME; LOCAL BALL GROUNDS UNDERGO IMPROVEMENT.

Failure to put on the widely advertised game between the Smethport and Rixford teams last Sunday afternoon, was due to Rixford withdrawal from the agreement late Saturday afternoon. Rixford asked that the game be canceled because of illness of a player's mother.

Thus the ball season has closed with more or less doubt concerning which would have proved the superior team if the full complement of games between Smethport and Rixford had been played.

With the closing of the season comes the encouraging news that the local base ball grounds will be improved materially by the addition of a modern fence with convenient entrances, the erection of a new grandstand and a thorough improvement of the grounds and diamond. Next year the boys hope to have one of the best ball grounds in this section of the state.

The McKean County Miner has a greater circulation than any other weekly newspaper in McKean County.

4,000 McKEAN HUNTERS GET BUSY WEDNESDAY.

Up to Wednesday noon of this week 4,000 hunting licenses had been issued by the treasurer's office of McKean county for the year of 1922, and the rush still continues.

Wednesday morning the woods in this vicinity were fairly alive with hunters and the crack of rifle and gun could be heard on all sides of the borough.

Reports of hunting exploits are expected from day to day.

SOLDIER BOYS PREPARE ARMISTICE DAY PLANS.

The soldier boys of Bucktail Post, American Legion, of Smethport are making every preparation for the fitting observance of Armistice day. The program for the day includes dedication of the monument in East Smethport, a supper given by the ladies of the Auxiliary, an address by a prominent speaker and a grand ball at the Eyceum in the evening.

YOUR HAND

How to Read Your Characteristics and Tendencies—the Capabilities or Weaknesses That Make for Success or Failure as Shown in Your Palm.

A BUSINESS PERSON'S HAND

WOULD you succeed in business? Study your hand carefully, and note whether the palm, the fingers, the mounts, the lines, etc., bear the indications which have been found, through study, to make the hand of the successful man or woman of business.

In the first place, the hand should be of good size, and inclined toward squareness, as indicating practicality of mind. Next, the consistency of the hand, should be firm, as showing energy.

The top phalanx or division of the thumb should be large and well-shaped, for this indicates good will-power, which is so necessary if one is to win success in the world of affairs. Reason and logic, also necessary qualities in business, show themselves in a well-shaped second phalanx of the thumb. Then turn to the finger of Apollo, the third or ring finger, and note whether the middle phalanx is long and well-shaped. If so, it indicates a love of work, which leads, of course, to success.

KIDDIES SIX

ALL'S WELL!

I'LL face the music, come what may—
Great music or bitter sorrow;
The sun may hide it's face today,
But it will shine tomorrow;
And if the road seems rough and long
I'll make it smoother, brighter,
By trudging on with smile and song
To make my burden lighter.

I'll face the music, come what may—
My heart with hope is throbbing.
The work that faces me each day
Cannot be done by sobbing.
Each daily stunt I'll do my best,
My efforts best recording;
Content that God will do the rest
And care for the rewarding.

Cellar.

Young King Boris of Bulgaria is so hard up that he is selling his cellar stock of wines and liquors to Sofia hotels, at 82 a bottle.

Boris, twenty-seven years old, has hocked most of his autos. He has only three servants, two guards, and has stopped all court functions and entertainments.

His father, before exile, lived in the extravagant luxury of an ancient Chinese emperor.

A result of the war: Imperialism is on its last legs, even where it hasn't been kicked out entirely.

COX BROTHERS, VICTIMS OF BLAST, ARE BROUGHT HOME IN SMETHPORT.

Sam and Zera Cox, victims of the explosion at the acetone plant, Thursday, October 5, who, since the date have been patients at the Bradford hospital, were brought to their homes in Smethport Tuesday afternoon, where they are resting quite comfortably. Attending physicians now believe that both men will recover completely within the next few weeks. They withstood the trip well and since their homecoming have been more cheerful than ever.
